

May 13, 1975

PRESIDENT: Doesn't the motion sort of logically divide itself, the membership on the one side and I assume that Senator Koch is going to do that when he closes and ask for a vote on...Do you have any other statement, Senator Kremer?

SENATOR KREMER: No, not now.

PRESIDENT: Senator Koch, the Chair is going to have to examine this to assist in their division. Senator Koch, would you approach your microphone? A cursory reading of this leaves the Chair with the impression that the question can be divided after Paragraph 4.

SENATOR KOCH: That's correct.

PRESIDENT: All right. That will be the proposition. The first proposition that we will vote for is that part... is paragraphs 1, 2, 3 and 4 of the amendment. The second part of the amendment will be the balance. Will you close? Senator Lewis.

SENATOR F. LEWIS: As I read the amendment, the question should be divided thusly; it should be paragraphs 1, 2 and 3, 5, 6, 7, 8, 9, 10, 11 as one part of it. The second part is only paragraph 4.

SENATOR KOCH: That's correct.

PRESIDENT: Senator Koch, will you...Senator Dickinson.

SENATOR DICKINSON: A question of Senator Koch, or two, before he closes. I think some of us need some clarification. Senator Koch, we now have a State Technical Community College Board, advisory board, or what is its capacity?

SENATOR KOCH: That is correct.

SENATOR DICKINSON: Your amendment would retire them and put the area board under the guidance of this State Board of Education.

SENATOR KOCH: The State Board of Education, as I have drawn this amendment, would supercede the original language of the bill which refers to the commission in every case.

SENATOR DICKINSON: What is the commission? What is your definition of the commission?

SENATOR KOCH: The commission's purpose, as I understand the bill, is to coordinate the endeavors of the area community college and the boards who serve those community colleges.

SENATOR DICKINSON: Is the commission and the State Technical Board synonymous? Are they one and the same. I don't understand.

SENATOR KOCH: No.

SENATOR DICKINSON: Then you are not eliminating the State Tech College Board.
